

Supporting Large IEP Populations with Speech Therapy

A multi-year partnership helps one of the nation's largest school districts provide high-quality care.

2018

began our partnership

22,500+

sessions delivered during SY 24-25

1,300+

students receiving care

117

schools supported

25

Huddle Up providers serving the district

About

Prince George's County Public Schools (PGCPS)

Prince George's County Public Schools (PGCPS) is the **second-largest school district in Maryland** and is among the **top twenty largest school districts nationwide**. The school system serves a diverse population of students from urban, suburban, and rural communities.

The Challenge

Supporting a large IEP population

- **Over 200 schools** in the district
- **15,000 students** who qualified for IEP-related services
- Struggles to **source and retain** enough **quality providers**

The Solution

Our nationwide pool of specialized providers

- Expanded from pilot to support **48 schools**
- Speech Language Pathologists provide **consistent, reliable, and high-quality** care
- **2 bilingual providers** to meet needs of diverse student body

"Many times, individuals will say that your zip code determines your options as far as school goes and, therefore, your success.

But our partnership with **Huddle Up** gives everyone the right zip code, and gives everyone the opportunity to have access [to care]."
